Overindulgence in Hope.
Used with due abstinence, hope acts as a beautiful tonic; temperately indulged, as an enervating opiate.—The visions of future triumph, which at first animate exertion, if dwelt upon too intently, will usurp the place of the stern reality; and noble objects will be contemplated, not for their own inherent worth, but on account of the day dreams they engender.—Thus hope, aided by imagination, makes one man a hero, another a somnambulist and a third a lunatic, and all enthusiasts.—Stephen.
